MEAD ACCOUNTABILITY ADVISORS LLC

GASB technical support for CPA firms. Extend your technical bench without the overhead.

Dean Michael Mead, CGFM | 914-497-3293 | dean@dmmead.com

Government engagements demand specialized expertise. Not every firm needs — or can justify — a full-time GASB specialist. That's where I come in.

After 24 years at the Governmental Accounting Standards Board and over 4 years as a partner and leader of a national government & public sector practice, I provide firms with on-demand access to deep technical expertise — without the overhead of a full-time hire.

HOW FIRMS ENGAGE ME

GAAP Help Line — On-call access to deep GASB expertise for everything from routine accounting issues to complex or unusual transactions — leases, SBITAs, P3s, and more. Like having GASB on speed dial.

Implementation Support — Hands-on guidance for engagement teams navigating GASB Statements 103 to 105 and other recent standards (GASB 87, 94, 96, 101). Ready to assist with forthcoming standards on infrastructure, going concern & severe financial stress, and revenue & expense recognition as soon as they are issued.

Technical Consultation — Ongoing or project-based support for analyzing transactions in for the applicability of GASB standards — technical research, client-ready memos, and staff training.

Independent Reviews — Not every firm has the capacity to review the products of their engagements in house. Second-set-of-eyes review on government engagements — GASB application, disclosure adequacy, and risk areas before issuance.

Staff Training & CPE Delivery — In-house technical accounting training for firm staff and clients — customized to your client base and engagement types.

White-Label Technical Content — Client-ready technical alerts, implementation resources, and thought-leadership pieces your firm can publish under its own name.

WHY FIRMS WORK WITH ME

- ✅ Former GASB insider — directly familiar with the standards you are implementing
- ✅ Experience as a partner and leader of the government practice of a top-25 national firm
- ✅ Responsive, project-scoped engagements — no long-term commitment required
- ✅ Confidential, white-label friendly — your client relationship stays yours
